## RESOLUTION NO. 5-2021

### A RESOLUTION OF THE BOARD OF DIRECTORS OF THE TAHOE-TRUCKEE SANITATION AGENCY ADOPTING 2021-22 TAX ROLL BILLING REPORT AND APPROVING BILLING AND COLLECTION OF CHARGES ON COUNTY OF PLACER TAX ROLL

BE IT RESOLVED by the Board of Directors of the Tahoe-Truckee Sanitation Agency as follows:

**1. Findings.** The Board finds and determines as follows:

a. The Agency adopted Ordinance No. 2-2019 authorizing and electing to collect sewer service charges on the County of Placer (“County”) tax roll and authorizing and directing Agency staff to take certain actions. Pursuant to Ordinance No. 2-2019 and Health and Safety Code section 5473, the Agency has prepared and filed with the Agency Secretary a written report with a description of real property parcels receiving Agency sewer service and each parcel’s sewer service charges for fiscal year 2021-22 (the “Report”) to be billed and collected on and through the County tax roll. The Board has reviewed and considered the Report.

b. Pursuant to Ordinance No. 2-2019, Health and Safety Code section 5473.1, and Government Code section 6066, the Agency has prepared and published and mailed public hearing notices informing affected property owners and ratepayers and interested members of the public about the Agency’s plan to collect charges on the tax roll and a public hearing to receive and consider public comments or protests concerning the Report and this resolution.

c. The Board conducted the public hearing on June 16, 2021 in accordance with applicable legal requirements and the Board has heard and considered the submitted comments and protests (if any). The Board did not receive a majority landowner protest under Health and Safety Code section 5473.2.

d. The County has required as a condition of the collection of the Agency sewer service charges that the Agency warrant the legality of the charges and defend and indemnify the County from any challenge to the legality of the charges.

**2. Report Adoption.** The Board adopts the Report in the form as filed with the Agency Secretary and as presented at this meeting. The Board approves, authorizes, and determines to bill and collect the sewer service charges as stated in the Report on and through the County of Placer tax roll. The Board authorizes and directs the Agency Secretary to file the Report with the County Auditor-Controller together with a statement endorsed on the Report over the Secretary’s signature that the Report has been finally adopted by the Board.

**3. Fee Collection.** Pursuant to Health and Safety Code sections 5473.4 to 5473.9, the Board authorizes and directs the County Auditor-Controller to place the Agency sewer service charges as stated in the Report on the County tax roll and the County tax collector to collect the charges at the same time and in the same manner as County property taxes.

**4. Agency Representation.** The Agency warrants and represents that the sewer service charges imposed by the Agency and being requested to be collected by the County comply with all requirements of state law, including, but not limited to, California Constitution articles XIIC and XIID (Proposition 218) (collectively the “Laws”).

**5. Release and Indemnity.** The Agency releases and discharges County, and its officers, agents, and employees, from any and all claims, demands, liabilities, costs and expenses, damages, causes of action, and judgments in any manner arising out of compliance of the Agency sewer service charges with the Laws. The Agency agrees to and shall defend, indemnify, and hold harmless the County, its officers, agents and employees (the “Indemnified Parties”) from any and all claims, demands, liabilities, costs and expenses, damages, causes of action, and judgments in any manner arising out of the Agency’s establishment and imposition of its sewer service charges. The Agency agrees that, in the event a judgment is entered in a court of law against any of the Indemnified Parties concerning the Agency’s establishment and imposition of its sewer service charges, the County may offset the amount of the judgment from any monies collected by County on behalf of the Agency, including property taxes.

**6. Public Inquiries.** The Agency agrees that its officers, agents, and employees will cooperate with the County in answering questions referred to the Agency by County from any person concerning the Agency sewer service charges and that the Agency will not refer such persons to County officers and employees for response.

**7. Payment of Fees.** The Agency agrees to pay to County such reasonable and ordinary charges as the County may prescribe to recoup its costs in placing on the tax roll and collecting the Agency sewer service charges as may be authorized by Government Code sections 29304 and 51800 and Health and Safety Code section 5473.9.

**Item:** V-5  
**Subject:** Approval of Resolution No. 6-2021 adopting 2021-2022 tax roll billing report and approving billing and collection of charges on the County of Nevada tax roll

---

### Background

The Agency adopted Ordinance No. 2-2019 authorizing and electing to collect sewer service charges on the County of Nevada tax roll and authorized and directed Agency staff to take certain actions. Pursuant to Ordinance No. 2-2019 and Health and Safety Code section 5473, the Agency has prepared and filed with the Agency Secretary a written report with a description of real property parcels receiving Agency sewer service and each parcel's sewer service charges for fiscal year 2021-2022 to be billed and collected on and through the County of Nevada tax roll.

The County of Nevada has required as a condition of the collection of the Agency sewer service charges that the Agency warrant the legality of the charges and defend and indemnify the County from any challenge to the legality of the charges. Resolution No. 6-2021 would meet the conditions of the County allowing the Agency to adopt the 2021-2022 tax roll billing report and approving billing and collection of charges on the County of Nevada tax roll.

### Fiscal Impact

Agency Sewer Service Charge revenue in the amount of \$4,374,109.44.

Additionally, the County of Nevada assesses a processing fee of a \$200 flat fee plus \$0.50 per parcel collected equaling approximately \$5,700.

## RESOLUTION NO. 6-2021

### A RESOLUTION OF THE BOARD OF DIRECTORS OF THE TAHOE-TRUCKEE SANITATION AGENCY ADOPTING 2021-22 TAX ROLL BILLING REPORT AND APPROVING BILLING AND COLLECTION OF CHARGES ON COUNTY OF NEVADA TAX ROLL

BE IT RESOLVED by the Board of Directors of the Tahoe-Truckee Sanitation Agency as follows:

**1. Findings.** The Board finds and determines as follows:

a. The Agency adopted Ordinance No. 2-2019 authorizing and electing to collect sewer service charges on the County of Nevada (“County”) tax roll and authorizing and directing Agency staff to take certain actions. Pursuant to Ordinance No. 2-2019 and Health and Safety Code section 5473, the Agency has prepared and filed with the Agency Secretary a written report with a description of real property parcels receiving Agency sewer service and each parcel’s sewer service charges for fiscal year 2021-22 (the “Report”) to be billed and collected on and through the County tax roll. The Board has reviewed and considered the Report.

b. Pursuant to Ordinance No. 2-2019, Health and Safety Code section 5473.1, and Government Code section 6066, the Agency has prepared and published and mailed public hearing notices informing affected property owners and ratepayers and interested members of the public about the Agency’s plan to collect charges on the tax roll and a public hearing to receive and consider public comments or protests concerning the Report and this resolution.

c. The Board conducted the public hearing on June 16, 2021 in accordance with applicable legal requirements and the Board has heard and considered the submitted comments and protests (if any). The Board did not receive a majority landowner protest under Health and Safety Code section 5473.2.

**2. Report Adoption.** The Board adopts the Report in the form as filed with the Agency Secretary and as presented at this meeting. The Board approves, authorizes, and determines to bill and collect the sewer service charges as stated in the Report on and through the County of Nevada tax roll. The Board authorizes and directs the Agency Secretary to file the Report with the County Auditor-Controller together with a statement endorsed on the Report over the Secretary’s signature that the Report has been finally adopted by the Board.

**3. Fee Collection.** Pursuant to Health and Safety Code sections 5473.4 to 5473.9, the Board authorizes and directs the County Auditor-Controller to place the Agency sewer service charges as stated in the Report on the County tax roll and the County tax collector to collect the charges at the same time and in the same manner as County property taxes. The Board further authorizes the County to collect the Agency sewer service charges pursuant to the previously approved Standard Form Tax Collection Services Contract between the County of Nevada and Tahoe-Truckee Sanitation Agency. The Board authorizes payment of applicable service charges to the County in accordance with Health and Safety Code section 5473.9 and any applicable agreement with the County.

BE IT RESOLVED by the Board of Directors of the Tahoe-Truckee Sanitation Agency as follows:

**1. Findings.** The Board finds and determines as follows:

a. The Agency adopted Ordinance No. 2-2019 authorizing and electing to collect sewer service charges on the County of El Dorado (“County”) tax roll and authorizing and directing Agency staff to take certain actions. Pursuant to Ordinance No. 2-2019 and Health and Safety Code section 5473, the Agency has prepared and filed with the Agency Secretary a written report with a description of real property parcels receiving Agency sewer service and each parcel’s sewer service charges for fiscal year 2021-22 (the “Report”) to be billed and collected on and through the County tax roll. The Board has reviewed and considered the Report.

b. Pursuant to Ordinance No. 2-2019, Health and Safety Code section 5473.1, and Government Code section 6066, the Agency has prepared and published and mailed public hearing notices informing affected property owners and ratepayers and interested members of the public about the Agency’s plan to collect charges on the tax roll and a public hearing to receive and consider public comments or protests concerning the Report and this resolution.

c. The Board conducted the public hearing on June 16, 2021 in accordance with applicable legal requirements and the Board has heard and considered the submitted comments and protests (if any). The Board did not receive a majority landowner protest under Health and Safety Code section 5473.2.

**2. Report Adoption.** The Board adopts the Report in the form as filed with the Agency Secretary and as presented at this meeting. The Board approves, authorizes, and determines to bill and collect the sewer service charges as stated in the Report on and through the County of El Dorado tax roll. The Board authorizes and directs the Agency Secretary to file the Report with the County Auditor-Controller together with a statement endorsed on the Report over the Secretary’s signature that the Report has been finally adopted by the Board.

**3. Fee Collection.** Pursuant to Health and Safety Code sections 5473.4 to 5473.9, the Board authorizes and directs the County Auditor-Controller to place the Agency sewer service charges as stated in the Report on the County tax roll and the County tax collector to collect the charges at the same time and in the same manner as County property taxes. The Board authorizes payment of applicable service charges to the County in accordance with Health and Safety Code section 5473.9 and any applicable agreement with the County.

## MEMORANDUM

**Date:** June 16, 2021  
**To:** Board of Directors  
**From:** Vicky Lufrano, Human Resources Administrator  
**Item:** V-7  
**Subject:** Approval of Resolution No. 8-2021 electing to adopt Public Agency Vesting for post-retirement health benefits under Section 22893 of the Public Employees' Medical and Hospital Care Act

---

### **Background**

In February, March and May of 2021, the Board discussed TTSA's retiree health plan and asked for further information to include a resolution for a vesting schedule. Language within the proposed resolution, provided by CalPERS, required the Agency to estimate the change in liability as it related to a potential change to the retiree health plan design. That estimate was provided at the May 2021 Board meeting, during which the Board asked that staff contact CalPERS and determine impacts to amending the retiree health benefit options. Specifically, as a result of the actuary's presentation at the May 2021 Board meeting, the Board wanted further information concerning whether the adoption of the Government Code section 22893 vesting schedule for retiree medical benefits applicable to eligible employees hired after its effective date would necessitate changes to TTSA's contributions to medical benefits for active employees and existing retirees (i.e. those who have retired prior to the effective date of the Government Code section 22893 vesting schedule Resolution that may be adopted by the Board of Directors and who meet the eligibility requirements for retiree medical benefits). The actuary had expressed an opinion that TTSA would need to apply the same health benefit contributions for its active employees and existing retirees if the Board adopted the Government Code section 22893 vesting schedule.

### **Executive Summary**

Staff sought the expertise of a benefits attorney, as well as CalPERS' assistance from their health account management division for health resolutions and compliance. They both confirmed that the adoption of a Government Code section 22893 vesting schedule (also referred to as the "State vesting schedule") would not require changes to the medical benefit contributions that TTSA provides to: (a) its active employees (current or future); (b) its existing retirees receiving retiree medical benefits from TTSA; and/or (c) the retiree medical benefits of current employees who retire in the future and otherwise meet the eligibility requirements for retiree medical benefits under TTSA's existing CalPERS resolution. A further analysis is found below.

### **Analysis**

1. Government Code section 22892 provides for the PEMHCA minimum contributions and the equal contribution rule that requires equal contributions for active employees and eligible retirees. Government Code section 22893 provides **one of the exceptions** to the

equal contribution rule by applying a vesting schedule with full vesting after 20 years. Government Code section 22893(a) provides in part:

*This subdivision shall apply only to employees who retire for service and are first employed after this section becomes applicable to their employer, except as otherwise provided in paragraph (6).*

Government Code section 22893(a)(6) provides:

*The employer may, once each year without discrimination, allow all employees who were first employed before this section became applicable to the employer to individually elect to be subject to the provisions of this section, and the employer shall notify the board which employees have made that election.*

Therefore, per Government Code section 22893(a), only employees hired after the adoption of the State vesting schedule, will be subject to the State vesting schedule upon their retirement. However, current employees, per Government Code section 22893(a)(6), may opt-in to the State vesting schedule up to one time each year, should the employer offer that option.

Additionally, current employees and current retirees, hired or retired prior to the adoption of the State vesting schedule, will be eligible for the agency's current retiree medical benefit upon retirement, should they meet the CalPERS minimum criteria for retirement.

2. Government Code sections 22892(a) and 22892(b) provide in part:

*(a) The employer contribution of a contracting agency shall begin on the effective date of enrollment and shall be the amount fixed from time to time by resolution of the governing body of the agency. The resolution [enacting the state vesting schedule] shall be filed with the board and the contribution amount shall be effective on the first day of the second month following the month in which the resolution is received by the system.*

*(b)(1) The employer contribution shall be an equal amount for both employees and annuitants, but may not be less than the following...[\$143.00 per month for 2021]*

Government Code section 22893's vesting schedule addresses retiree medical contributions only and does not affect TTSA's contributions for active employees' medical benefits. Therefore, active employees, both currently employed and hired after the adoption and implementation of the State vesting schedule, are subject to Government Code section 22892 that requires at least the PEMHCA minimum (\$143.00 per month for 2021) for each active employee.

### **Fiscal Impact**

Based on future retirement savings.

**To:** Board of Directors  
**From:** Vicky Lufrano, Human Resources Administrator  
**Item:** V-8  
**Subject:** Approval of Organizational Chart

---

### **Background**

The Information Technology (IT) Department Manager will be retiring at the end of July and the Organizational Chart should be amended to accurately reflect and account for full-time equivalent (FTE) staffing accordingly.

The IT Department has traditionally been its own independent department; however, the proposed organization is to not maintain a stand-alone IT department moving forward. The IT Department Manager position will not be filled and the IT Specialist classification shall report to the E&I Supervisor classification. It should be noted, this change will (1) increase efficiencies through improved communication and coordination between IT Specialists and E&I Technicians as there is often cross over in tasks and (2) create an appropriate FTE per superior-subordinate relationship.

The Organizational Chart is to become effective August 1, 2021 with the retirement of the IT Department Manager.

## MEMORANDUM

**Date:** June 16, 2021  
**To:** Board of Directors  
**From:** Vicky Lufrano, Human Resources Administrator  
**Item:** V-10  
**Subject:** Approval of cost-of-living adjustment and salary schedules for fiscal year 2021-2022

---

### **Background**

In 2019, as part of Resolution No. 12-2019, the Board of Directors approved annual cost-of-living adjustments (COLA) to be applied to Group B within the Salary Schedule. The COLA shall be in accordance with the California Consumer Price Index (CPI), All Urban Consumers, beginning and ending in February of the corresponding year, and be applied at the beginning of the first full pay period in the fiscal year. For the upcoming fiscal year, if approved by the Board of Directors, the COLA will be applied commencing July 4, 2021. The CPI has now been updated by the CA Department of Industrial Relations.

Resolution No. 12-2019 allowed for the Agency to calculate the CPI as follows: 100% of the first 3% of CPI, 75% of the incremental increase between 3.01% and 6%, 50% of the incremental increase between 6.01% and 12%, over 12% will be determined by the Board of Directors.

Therefore, the posted CPI of 1.7%, will be calculated as follows:

1.7% @ 100% = 1.7%

If approved, employees within Group B of the Salary Schedule at TTSA will receive a 1.7% increase in salary effective July 4, 2021.

Attached are documentation supporting the COLA and updated hourly salary schedules for consideration. It should be noted the attached FY 2021-2022 hourly salary schedule, effective July 4, 2021, reflects the current Organizational Chart with the IT Department as a stand-alone department. Additionally, the FY 2021-2022 hourly salary schedule, effective August 1, 2021, reflects the updated Organizational Chart effective August 1, 2021.

### **Fiscal Impact**

1.7% salary increase for employees within Group B classifications of the salary schedule.

## MEMORANDUM

**Date:** June 16, 2021  
**To:** Board of Directors  
**From:** Crystal Sublet, Finance and Administrative Manager  
**Item:** V-11  
**Subject:** Approval of additional payment towards the Agency's unfunded accrued liability for employee retirement pension.

---

### Background

The Agency unfunded accrued liability (UAL) is the amortized dollar amount needed to fund past service credit earned (or accrued) for CalPERS members who are currently receiving benefits, active members, and for members entitled to deferred benefits, as of the valuation date.

At the June 2020 Board of Directors meeting, the Board approved an additional payment towards its UAL of \$1,315,000. This amount was half of the budgeted amount of approximately \$2.6M. The Agency may provide the remaining half of the budgeted UAL payment of \$1,320,500 prior to the end of fiscal year so it may be accounted for in the upcoming CalPERS actuarial report.

It should be noted the additional payment towards the UAL is not required as the Agency has met the minimum payment for the current fiscal year. Should the Agency provide the additional UAL, there will be a cost savings as the principal amount would decrease. Unfortunately, a recent actuarial has not been performed so an actual long term savings can not be provided, however, is anticipated to be approximately \$1.6M if the Agency maintains the minimum payment over the full amortized period.

### Fiscal Impact

Payment of \$1,320,500 which is expected to yield a savings of approximately \$1.6M over the full amortized period.

### Attachments

CalPERS Lump Sum Payment to reduce the Unfunded Accrued Liability – June 2, 2021

### Recommendation

Management and staff recommend approval of additional payment of \$1,320,500 towards the Agency's unfunded accrued liability for employee retirement pension.

## Appendices

Appendix A: General Fund Budget Expenditure Summary

## Introduction

The Agency maintains numerous funds which are collectively utilized for (1) maintaining the daily operations of the Agency, (2) construction of capital improvement projects, and (3) maintaining reserves. Daily operations are administered through the General Fund (Fund 10). Capital improvements which are designated as individual projects estimated at \$25,000 or greater are administered through the Wastewater Capital Reserve Fund (Fund 02) and Replacement, Rehabilitation and Upgrade Fund (Fund 06) depending on the project scope and fund allocation. The Emergency and Contingency Reserve Fund (Fund 07) which is the consolidation of the Emergency Reserve Fund (Fund 07) and the Unrestricted Reserve Fund (Fund 09) from fiscal year 2019-2020 is the primary reserve fund to manage Agency financial obligations, mitigate risks due to revenue shortfalls and unanticipated expenses, aid in long-term financial planning, and insulate ratepayers from large, abrupt increases in service charges.

This annual budget is prepared to project revenues and expenditures that are anticipated for the daily operations of the Agency for fiscal year 2021-2022 commencing July 1, 2021 through June 30, 2022 and to plan for capital improvements over the next five (5) fiscal years. The operating budget and capital improvement plan formats for fiscal year 2021-2022 are similar to the past fiscal year.

This annual budget is sectioned to provide (1) a review of fiscal year 2020-2021 revenues, expenditures and capital improvements; (2) fiscal year 2021-2022 revenues; (3) fiscal year 2021-2022 expenditures; (4) capital improvements plan (5-year); (5) fund summaries; (6) Unfunded Accrued Liability; (7) end of year projected balances; and (8) General Fund budget expenditures summary.

## Fund Descriptions

The Agency maintains its funds through various funds and bank institutions. There is one (1) operating fund (Fund 10) and three (3) reserve funds (Funds 02, 06 & 07). The descriptions and fund numbers of each fund are as follows:

### Fund 10: General Fund

The General Fund revenue source is provided through the collection of property tax revenue, sewer service charges, fund interest, and miscellaneous revenue. The fund is used to pay the costs and expenses relating to the operation and maintenance of the wastewater transport, treatment, disposal, and related facilities, including expenditures to support the administrative, operations, maintenance, engineering, and information technology departments.

The General Fund amount shall be fixed at the beginning of each fiscal year as part of the budget process. It ordinarily shall be in an amount equal to 60% of the annually budgeted expenses plus the annually budgeted Unfunded Accrued Liability payment. At the end of each fiscal year, surplus money in the General Fund exceeding this minimum target balance shall be transferred to the Replacement, Rehabilitation and Upgrade Fund.

### Fund 02: Wastewater Capital Reserve Fund

The Wastewater Capital Reserve Fund is funded from connection charge revenue. The purpose of the fund is to finance capital improvement and expansion facility projects that are necessary or appropriate to provide capacity to serve new development within the Agency's boundaries and to maintain a high level of sewer service for the benefit of such new development. The fund will be used for such capital improvement projects estimated to cost \$25,000 or greater. A capital

improvement project costing less than \$25,000 generally will be funded from the General Fund. The Wastewater Capital Reserve Fund is a restricted fund; therefore, monies in the fund shall not be used for any other purpose or transferred to any other fund.

The Wastewater Capital Reserve Fund balance shall be equal to the unexpended connection charge revenue balance. The Agency periodically will evaluate and adjust the connection charge amounts as appropriate in light of the anticipated future development plans and expectations and capacity expansion requirements. The Wastewater Capital Reserve Fund shall have a minimum target balance equal to fifty percent (50%) of the projected five years (current, plus four) of the planned budget for the capital improvement projects.

### Fund 06: Replacement, Rehabilitation and Upgrade Fund

The Replacement, Rehabilitation and Upgrade Fund is funded from the transfer of surplus monies from the General Fund described above. The purpose of the fund is to finance capital improvement projects to replace, rehabilitate and upgrade the existing plant, facilities, equipment, and appurtenances. The fund will be used for such capital improvement projects estimated to cost \$25,000 or greater. A capital improvement project costing less than \$25,000 generally will be funded from the General Fund.

The Replacement, Rehabilitation and Upgrade Fund balance shall be equal to the unexpended revenue balance of transfers from the General Fund. The Agency periodically will evaluate and adjust the target balance as appropriate in light of the anticipated future capital needs of the wastewater system. The Replacement, Rehabilitation and Upgrade Fund shall have a minimum target balance equal to fifty percent (50%) of the projected five years (current, plus four) of the planned budget for the capital improvement projects.

### Fund 07: Emergency and Contingency Reserve Fund

The Emergency and Contingency Reserve Fund is funded by available Agency funds and revenue. The Agency periodically may fund the Emergency and Contingency Reserve Fund through an appropriation in the Agency budget. The Agency will strive to replenish the fund as part of the budget in any fiscal year following any year in which money was withdrawn from the fund.

The Emergency and Contingency Reserve Fund is intended to manage Agency financial obligations, mitigate risks due to revenue shortfalls and unanticipated expenses, aid in long-term financial planning, and insulate ratepayers from large, abrupt increases in service charges. The fund is established for the following purposes and may be used for the following expenditures and needs: to fund costs and expenses arising out of or caused by an emergency or disaster; to fund unbudgeted and unanticipated capital improvements, repairs, and replacements; to pay unbudgeted and unanticipated operation, maintenance, management, or administrative expenses that are not covered by regular operating revenue; to pay uninsured losses; and, to cover other cash flow needs due to revenue delays or funding shortfalls.

The target fund balance is a minimum of \$4 million. The Agency Board will review this fund on an annual basis during the budget process and based on a recommendation of the General Manager, will establish the fund amount for the fiscal year in an amount that is a minimum of the target balance, unless otherwise determined by the Board.

All funds are deposited within the Local Agency Investment Fund (LAIF) which is an investment program

for California local governments and special districts. The program offers local agencies the opportunity to participate in a major portfolio, which invests hundreds of millions of dollars of pooled funds, using the investment expertise of the State Treasurer's Office investment staff.

As monies are required for expenditures, they are withdrawn from LAIF and placed in financial institutions for further distribution. All financial transactions in LAIF are recorded and fund balances are disseminated through Agency accounting procedures.

## Fiscal Year 2020-2021 Budget Review

The following descriptions and tables provide a review of fiscal year 2020-2021 General Fund, Wastewater Capital Reserve Fund; Replacement, Rehabilitation and Upgrade Fund; and Emergency and Contingency Reserve Fund. It should be noted, the Emergency and Contingency Reserve Fund did not supplement annual operating or capital improvements plan budgets, therefore, only accrued revenue from interest activity.

As the following tables reflect projected end of current fiscal year actuals, it should be noted the values for each budget item may vary as final end of fiscal year amounts and journal entry adjustments are completed. It should also be noted table values and calculations have been rounded.

### Fund Revenues

#### Fund Revenue Summary Review

Table 1 identifies a summary of revenues per fund for fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals, and comparison of fiscal year 2020-2021 projected actuals versus the budget. Actual total projected revenues of all Agency funds are 100.3% of budgeted revenues and are approximately \$66K higher than budgeted revenues. Further detail for each fund will follow in subsequent tables.

#### Fund 10: General Fund Revenue Review

Table 2 identifies a summary of revenues for the General Fund for fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals, and comparison of fiscal year 2020-2021 projected actuals

versus the budget. Actual projected General Fund revenues are 99.7% of budgeted revenues and are approximately \$58K lower than budgeted, primarily attributed to a decrease in Ad Valorem revenue.

### Fund 02: Wastewater Capital Reserve Fund Revenue Review

Table 3 identifies a summary of revenues for the Wastewater Capital Reserve Fund for fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals, and comparison of fiscal year 2020-2021 projected actuals versus the budget. Actual projected revenues are 127.7% of budgeted revenues and are approximately \$491K higher than budgeted. This exceedance is due to higher-than-expected sewer connection fee revenues and lower than expected LAIF interest rates. It should be noted, other funds that rely on fund interest as a revenue source such as the Replacement, Rehabilitation and Upgrade Fund and Emergency and Contingency Reserve Fund will also reflect lower fund interest budgeted amounts due to lower LAIF interest rates.

### Fund 06: Replacement, Rehabilitation and Upgrade Fund Review

Table 4 identifies a summary of revenues for the Replacement, Rehabilitation and Upgrade Fund for fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals, and comparison of fiscal year 2020-2021 projected actuals versus the budget. Actual projected revenues are 18.2% of budgeted revenues and are approximately \$254K lower than budgeted. The only source of revenue for the fund is through fund interest which was lower than expected due to the lower interest rates within LAIF.

*Table 4: 2020-2021 Replacement, Rehabilitation and Upgrade Fund Review*

#### Fund 07: Emergency and Contingency Reserve Fund Review

Table 5 identifies a summary of revenues for the Emergency and Contingency Reserve Fund for fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals, and comparison of fiscal year 2020-2021 projected actuals versus the budget. Actual projected revenues are 27.0% of budgeted revenues and are approximately \$113K lower than budgeted. Similar to other fund interest revenue, the lower LAIF interest rates generated less than expected revenues.

Table 6 identifies the General Fund expenditure summary for the fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals and a comparison of fiscal year 2020-2021 projected actuals versus the budget.

Overall, the total Agency fiscal year 2020-2021 General Fund actual projected expenditures are 89.5% of budgeted expenditures and are approximately \$1.5M lower than budgeted.

The following Tables 7 through 11 provide a department breakdown of the General Fund expenditures that support summary Table 6 above. It should also be noted that for all departments, Conferences and Training are under budget attributed to the COVID-19 Pandemic and references to the difference will not be discussed per department.

#### Fund 10: General Fund Expenditures Review – Administrative Department Review

Table 7 below provides a summary for the fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals and a comparison of fiscal year 2020-2021 projected actuals versus the budget of the Administrative Department. The projected actuals are 83.8% of the budgeted values, equivalent to approximately \$498K, which is due to decreased Salaries & Wages and Employee Benefits as there was a position vacancy during the fiscal year and the Agency accrued lower legal fees within Professional Services.

Table 8 below provides a summary for the fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals and a comparison of fiscal year 2020-2021 projected actuals versus the budget of the Operations Department, which includes the Operations and Laboratory sub-departments. The projected actuals are 94.6% of the budgeted values which is primarily attributed to unfilled positions within the department during the fiscal year. The percent difference equates to a difference of approximately \$341K.

### Fund 10: General Fund Expenditures Review – Engineering Department Review

Table 9 below provides a summary for the fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals and a comparison of fiscal year 2020-2021 projected actuals versus the budget of the Engineering Department, which includes the Engineering and Safety sub-departments. The projected actuals are 77.5% of the budgeted values equaling an approximate \$317K difference which is primarily due to unaccrued expenses within Professional Services. The Professional Services include annual general engineering service agreements which are used on an as-needed basis and are typically lower than budgeted amounts. Other factors include lower expenditures in Contractual Services and Supplies, Repairs and Maintenance.

Table 9: 2020-2021 General Fund Expenditure – Engineering Department Review

Fund 10: General Fund Expenditures Review – Maintenance Department Review

Table 10 below provides a summary for the fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals and a comparison of fiscal year 2020-2021 projected actuals versus the budget of the Maintenance Department, which includes the Maintenance, Electrical & Instrumentation (E&I) and Warehouse sub-departments. As the table indicates, the projected actuals are 90.3%, or approximately \$302K difference, of the budgeted values. The difference in the amounts is due to staff retirements, staff reductions due to organizational structure changes, lower than expected Contractual Services as contractor scheduling was restricted, and reduced Supplies, Repairs and Maintenance expenditures associated with fewer repair projects.

The projected actuals are 90.2% of the budgeted values caused by a partial year staff vacancy and reduced use of Supplies, Repairs and Maintenance for typical projects and maintenance tasks. The present difference represents a total difference of approximately \$61K between projected actuals and budgeted amounts.

### Fund 02: Wastewater Capital Reserve Fund Review

Table 12 provides a summary comparison of the approved budget and the projected actuals at the end of the 2020-2021 fiscal year for the associated Wastewater Capital Reserve Fund capital improvements. Projected actual improvements expenditures were approximately 375% or \$1.1M greater than the budgeted expenditures. Overall, the projected actual improvement fund expenditures to include debt service, was approximately 140.6% or \$1.1M greater than the budgeted expenditures.

It should be noted, the large monetary differences occurred in (1) the Barscreens, Washers and

Compactors project as the construction phase was scheduled for fiscal year 2021-2022 and commenced in the current fiscal year and (2) various other unbudgeted projects in the fiscal year also commenced earlier than expected and prior to their scheduled fiscal year.

#### Fund 06: Replacement, Rehabilitation and Upgrade Fund Review

Table 13 provides a summary comparison of the approved budget and the projected actuals at the end of the 2020-2021 fiscal year for the associated Replacement, Rehabilitation and Upgrade Fund capital improvements. Projected actual improvement expenditures were approximately 67.5% or \$774K less than the budgeted expenditures. Overall, the projected actual fund expenditures, including debt service, was approximately 75.8% or approximately \$774K less than the budgeted expenditures.

In summary, some projects were not accomplished during the fiscal year, or the expenditures were lower than expected due to the competitive bidding process.

### Fund Revenues

#### Fund Revenue Summary

Table 14 identifies a summary of all Agency revenues per fund for fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals, fiscal year 2021-2022 budget, the percent change in fiscal year 2021-2022 budget to the fiscal year 2020-2021 projected actuals, and the percent change in fiscal year 2021-2022 budget versus the fiscal year 2020-2021 budget.

Overall, the total Agency fiscal year 2021-2022 revenue budget is approximately 104.1% or approximately \$782K greater than fiscal year 2020-2021 projected revenue actuals. When evaluating fiscal years 2010-2020 and 2021-2022 budgets, fiscal year 2021-2022 budget is 104.5% of fiscal year 2020-2021 budget equating to an increase of approximately \$848K.

### Fund 10: General Fund Revenue

Table 15 identifies a summary of General Fund revenues for fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals, fiscal year 2021-2022 budget, the percent change in fiscal year 2021-2022 budget to the fiscal year 2020-2021 projected actuals, and the percent change in fiscal year 2021-2022 budget versus the fiscal year 2020-2021 budget. The table indicates, fiscal year 2021-2022 budgets are 105.8% of fiscal year 2020-2021 projected actuals which is an increase of approximately \$976K and fiscal year 2021-2022 budget is 105.5% of the fiscal 2020-2021 budget which is also an increase of approximately \$918K. The large monetary increases are due to increased sewer service charges.

### Fund 02: Wastewater Capital Reserve Fund Revenue

The Wastewater Capital Reserve Fund table is organized similar to the General Fund table above. When evaluating the 2021-2022 budget versus 2020-2021 projected actuals, the 2021-2022 budget is 92.2% of the 2020-2021 projected actuals equaling a decrease difference of approximately \$176K. This reduction in the 2021-2022 budget is attributed to an expected lower revenue in sewer connection fees and fund interest. When evaluating the budgets of fiscal years, the 2021-2022 budget is 117.7% of the 2020-2021 budget which is an increase of approximately \$315K as there were higher than expected sewer connection received.

### Fund 06: Replacement, Rehabilitation and Upgrade Fund Revenue

The Replacement, Rehabilitation and Upgrade Fund revenue consists of fund interest revenue generated in the LAIF account. Due to low LAIF interest rates, the 2021-2022 budget is 14.5% of the 2020-2021 budget which is a decrease of approximately \$265K. When comparing the 2021-2022 budget versus 2020-2021 projected actuals, the 2021-2022 budget is 79.9% of the 2020-2021 projected actuals, or a decrease of \$11K, as the LAIF interest rates are expected to remain low for the fiscal year. This reduction in fund interest will be consistent with other funds containing fund interest revenue from LAIF.

### Fund 07: Emergency and Contingency Reserve Fund Revenue

Similar to the Replacement, Rehabilitation and Upgrade Fund, the Emergency and Contingency Reserve Fund revenue consists of fund interest generated in the LAIF account. As previously stated and typical to other interest fund returns, the fund interest was lower than expected and adjustments were made to account for a continued lower LAIF interest rate. The 2021-2022 budget is 22.6% of the 2020-2021 budget which is a decrease of approximately \$120K and the 2021-2022 budget is 83.7% of the 2020-2021 projected actuals equaling a difference of approximately \$7K.

Overall, the total Agency fiscal year 2021-2022 General Fund expenditure budget is approximately 118.8% or approximately \$2.4M more than the fiscal year 2020-2021 projected actuals and approximately 106.4% or \$0.9M more than fiscal year 2020-2021 budgeted expenditures. Further breakdown of the departmental expenditures in the General Fund are detailed in subsequent tables.

### Fund 10: General Fund Expenditures – Administration Department

Table 20 identifies the General Fund breakdown for the Administration Department expenditures for the fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals, fiscal year 2021-2022 budget, the percent change in the fiscal year 2020-2021 budget to the fiscal year 2020-2021 projected actuals, and the percent change in the fiscal year 2021-2022 budget versus the fiscal year 2020-2021 budget.

As noted in the table, the 2021-2022 budget is 119.6% of the 2020-2021 projected actuals. This approximate \$503K increase of the 2021-2022 budget is primarily due to increases in Employee Benefits as a result of amended employee benefits affected by increased HRA benefits and increased CSRMA insurance rates as rates are expected to increase substantially. When comparing the 2020-2021 budget to the 2021-2022 budget, the budget totals are very similar with only a minor difference. The reductions in Professional Services and Salaries & Wages offset the increase of insurance expenditures to generate a minimal change in fiscal year budgets.

## Fund 10: General Fund Expenditures – Engineering Department

Similar to the previous department expenditures, the Engineering Department expenditures table provides fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals, fiscal year 2021-2022 budget, the percent change in the fiscal year 2020-2021 budget to the fiscal year 2020-2021 projected actuals, and the percent change in the fiscal year 2021-2022 budget versus the fiscal year 2020-2021 budget. The Engineering Department includes the Engineering and Safety sub-departments.

The 2021-2022 budget is 155.7% of the 2020-2021 projected actuals. This increase is an approximate \$608K increase which is attributed to increased Salaries & Wages and Employee Benefits for an additional engineering staff member, increases in Contractual Services to include digital scanning of the TRI and an updated Arc Flash Study, and Professional Services to include the typical engineering services agreements. The 2021-2022 budget is 120.6% of the 2020-2021 budget or an approximate \$291K increase which is primarily attributed to increased staff costs and Contractual Services.

### Fund 10: General Fund Expenditures – Maintenance Department

Similar to the previous department expenditures, the Maintenance Department expenditures table provides fiscal year 2020-2021 budget, fiscal year 2020-2021 projected actuals, fiscal year 2021-2022 budget, the percent change in the fiscal year 2020-2021 budget to the fiscal year 2020-2021 projected actuals, and the percent change in the fiscal year 2021-2022 budget versus the fiscal year 2020-2021 budget. The Maintenance Department includes the Maintenance, Electrical and Instrumentation, Information Technology, and Warehouse sub-departments.

The 2021-2022 budget is 148.3% of the 2020-2021 projected actuals. This is approximately a \$1.4M increase which is attributed to increased Salaries & Wages and Employee Benefits for the addition of the IT Staff to the Maintenance Department, increases in Office Expense for office furniture and software, increased Contractual Services for defensible space and landscaping and outsourcing of IT Services. Lastly, an increase in Supplies, Repairs and Maintenance for cleaning

lines of the Truckee River Interceptors (TRI), traffic signs and bypass pumping supplies. The 2021-2022 budget is 133.9% of the 2020-2021 budget or an approximate \$1.1M increase which is primarily attributed to the transfer of the IT staff and IT Contractual Services.

## Fund 02: Wastewater Capital Reserve Fund Expenditures

Table 24 identifies the projects and expenditures for the 5-year Capital Improvements Plan (CIP) within the Wastewater Capital Reserve Fund. The fund continues to provide a percentage of the debt payment. Overall, the 5-year total for the capital improvements is approximately \$15.5M. When debt service payment is included, the total fund expenditure is approximately \$26.6M.

It should be noted, the Agency has contracted a private engineering consultant to prepare a Master Sewer Plan which will provide recommendations for capital improvements. It is expected there will be variances from the proposed projects in the CIP and Master Sewer Plan.

## Unfunded Accrued Liability

The Agency participates in the California Public Employees' Retirement System (CalPERS) which includes a plan for Classic and PEPRA (Public Employees' Pension Reform Act) employees. Based on the annual valuation reports prepared by CalPERS, the estimated unfunded accrued liability (UAL) for 06/30/21 is approximately \$12.8M.

The Agency has provided additional payments above the required minimum towards the UAL which has reduced the overall interest amount accrued. In lieu of continuing direct additional payments to the CalPERS, the Agency will investigate other methods to pay the UAL to include additional discretionary payments.

The Agency will investigate the benefit of the California Employers' Pension Prefunding Trust (CEPPT) Fund program which is a trust fund program dedicated to prefunding employer contributions to defined benefit pension systems. Should the CEPPT be a desired option, the Agency will determine the appropriate prefunding schedule. Should the Agency decide to proceed with direct payments to CalPERS, the Agency can determine the appropriate payment schedule at that time.

As there are alternatives that should be researched, the Agency will maintain the minimum UAL payment per the current amortization schedule as prepared by CalPERS. Table 29 identifies the appropriate amortized payments for the next five (5) fiscal years. Notes: <sup>(1)</sup> Payment per current 30-year amortization.

*Table 29: CalPERS UAL 5-Year Amortization Schedule Summary*

Fiscal Year	Annual Scheduled Payment (\$) <sup>(1)</sup>
2021-2022	1,106,377
2022-2023	1,241,396

## Projected End of Fiscal Year Fund Balances

Table 30 lists the expected fund balances at the end of fiscal year 2021-2022. Each fund is shown with the beginning balance, annual revenue, annual expenditure, applicable UAL payment and end of year balance for each fund. The total of all funds is approximately \$40.7M. It should be noted the table values have been rounded.

## General Fund Budget Expenditure Summary

Appendix A provides a detailed account of each department's budgeted expenditures.

### Summary

The annual budget for fiscal year 2021-2022 provides detailed operating budgets and capital improvement plans for the Agency in order to meet the waste discharge requirements and provide a high level of service to its customers. As the budget is monitored and more data is collected, the Agency will be able to better determine department operating and maintenance costs and make financial decisions on its assets accordingly. It is recommended the 5-year capital improvement plans be reevaluated once the Master Sewer Plan is completed.

**RESOLUTION 9-2021**

**A RESOLUTION OF THE BOARD OF DIRECTORS OF THE  
TAHOE-TRUCKEE SANITATION AGENCY  
REVISING THE WASTEWATER CAPITAL RESERVE FUND BUDGET  
AND MAKING RELATED FINDINGS**

WHEREAS, in 1990 and pursuant to the report prepared by CH2M Hill entitled "Tahoe-Truckee Sanitation Agency Connection Fee Review", the Tahoe-Truckee Sanitation Agency ("Agency") adopted the asset replacement approach for the calculation of connection fees, which approach essentially determines each user's (existing and new) share of the cost of replacing the Agency's capital facilities, and which was updated in 2006;

WHEREAS, pursuant to its ordinances, the Agency collects connection charges from those connecting to the Agency's regional sewer system and from those adding to their existing sewer allocations;

WHEREAS, the connection charge revenue is deposited in the Agency's Wastewater Capital Reserve Fund to be expended for capital facility projects required to be constructed to provide capacity to serve new development within the Agency's boundaries and to maintain a high level of sewer service for the benefit of such new development;

WHEREAS, such capital projects initially were identified in the "Updated Project and Financial Review", dated September 1991;

WHEREAS, since September of 1991, the "Updated Project and Financial Review" has been reconsidered and modified, and a new listing of capital facility projects has been developed and is attached hereto as Exhibit A; and

WHEREAS, the Board of Directors of the Agency now desires to make certain findings concerning the purposes for which the Wastewater Capital Reserve Fund will be used and the relationship between such uses and the connection charges which are deposited into said fund.

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of the Tahoe-Truckee Sanitation Agency hereby makes the following findings:

1. The connection charge revenue collected by the Agency is deposited in the Wastewater Capital Reserve Fund. That fund was established to finance capital projects needed to serve new development within the Agency. The current amount in the Wastewater Capital Reserve Fund is \$21,473,785.12.
2. The currently planned capital facility projects of the Agency and their anticipated date of construction are described in Exhibit A attached hereto and incorporated by this reference.

3. The projects described in Exhibit A are needed or appropriate in order to provide sewage transmission, treatment and disposal capacity to accommodate new development within the Agency's regional sewage system and to continue to maintain a high level of service for the benefit of such new development.
4. The Wastewater Capital Reserve Fund also may be borrowed from or directly used to cover in part uninsured emergency and catastrophic losses to capital facilities, including the sewage treatment plant and interceptor pipelines (facilities which benefit both new and existing development), and other necessary capital facility reserve needs.
5. The Wastewater Capital Reserve fund also shall be used to pay a major portion of the balance due on the 2020 Wastewater Revenue Refunding Bond obtained for the refinancing of the Agency's previous State Revolving Fund loan for the 2008 expansion of the Agency wastewater treatment plant to 9.6 million gallons per day, the principal of which approximates \$15.7 Million.
6. The entire balance remaining in the Wastewater Capital Reserve Fund is needed to and is hereby committed to fund the capital facilities, contingencies, reserve needs, and bond payments as set forth in findings 2 to 5 above.

PASSED AND ADOPTED by the Board of Directors of the Tahoe-Truckee Sanitation Agency on this 16<sup>th</sup> day of June 2021 by the following roll call vote:

**Subject:** Approval of Resolution No. 10-2021 to establish appropriations limits for fiscal year 2021-2022

---

### **Background**

Proposition 4 approved by the State of California voters in November 1979 added California Constitution, Article XIII B which limits the level of most appropriations from tax sources that the state and most local government entities, including T-TSA, are permitted to make in any given year. The limit for each year is equal to the limit for the prior year, adjusted for changes in the cost of living and population.

T-TSA is required by Government Code Section 7910 to establish the appropriations limits per fiscal year by resolution at a regularly scheduled and noticed meeting.

### **Fiscal Impact**

**A RESOLUTION OF THE BOARD OF DIRECTORS OF THE  
TAHOE-TRUCKEE SANITATION AGENCY  
ESTABLISHING APPROPRIATIONS LIMITS FOR  
FISCAL YEAR 2021-2022**

WHEREAS, California Constitution Article XIII B and Government Code Section 7901 require the Agency to calculate and establish appropriations limits for the Agency property tax revenue and other “proceeds of taxes;” and

WHEREAS, the Agency also receives revenue from service charges and connection fees; however, proceeds of taxes subject to the appropriations limit do not include such Agency revenue because the revenue does not exceed the Agency’s reasonable and actual costs in providing sewer service; and

WHEREAS, Government Code Section 7910 requires the Agency to establish the appropriations limit for fiscal year 2021-22 by resolution at a regularly scheduled and noticed meeting; and

WHEREAS, a report has been prepared and filed with the Agency Secretary which contains the calculation of the appropriations limits and which has been available to the public for inspection for at least 15 days prior to the adoption of this resolution.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Tahoe-Truckee Sanitation Agency as follows:

1. The Agency appropriations subject to limitation consist solely of property tax revenue and other “proceeds of taxes.”
2. The appropriations limit for fiscal year 2021-22 based on allowable increases in per capita personal income and change in population is \$3,749,405.
3. The estimated fiscal year 2021-22 expenditures from property tax revenue and other “proceeds of taxes” do not exceed the allowable appropriations limit.

## MEMORANDUM

**Date:** June 16, 2021  
**To:** Board of Directors  
**From:** Jay Parker, Engineering Manager  
**Item:** V-15  
**Subject:** Approval to reject all bids received for the 2021 Lime System Improvements project

---

### Background

The Agency uses a lime storage, conveyance, and feed system to deliver lime slurry to the chemical sludge dewatering and rapid mix processes of the treatment plant. The 2021 Lime System Improvements project would install a new shaftless screw conveyance system to integrate with the existing lime slurry distribution systems. The project is preferred by staff and will reduce continued maintenance on the current pneumatic lime conveyance process; however, it is not required for continued operation.

Two bids for the project were received on May 27, 2021 as follows:

- Milling Machinery, Inc., Mesa, AZ: \$339,667
- K.G. Walters Construction Co., Inc., Santa Rosa, CA: \$377,800

The total bid prices received are significantly greater than both the budgeted amount of \$150,000 and the engineer's estimate of \$130,000. It should be noted this discrepancy between bid costs and estimated costs appears to be a recent trend due to increasing material and labor costs.

Upon further discussion, management have determined the project may be postponed and re-advertised for bids at a future date with minimal impacts. This postponement may yield lower bid costs in the future.

Agency Ordinance No. 3-2015 affords the Board of Directors to reject all bids and not proceed with the contract.

### Fiscal Impact

**From:** Jay Parker, Engineering Manager  
**Item:** V-16  
**Subject:** Approval of the MOU for the digital orthophotography and LiDAR data for the Truckee-North Tahoe region

---

### **Background**

The Town of Truckee (Town) is coordinating an Aerial Mapping project to fly the Truckee-North Tahoe region to produce high resolution aerial imagery and Light Detection and Ranging (LiDAR) data. To perform the work, the Town is partnering with several other local agencies including North Tahoe Public Utility District, Northstar Community Services District, Tahoe City Public Utility District, Truckee Donner Public Utility District, Truckee Sanitary District, and the Truckee-Tahoe Airport District.

The high resolution aerial imagery and Light Detection and Ranging (LiDAR) data will provide detailed basemaps of the partner agency service areas for our GIS map displays and other various uses. The cost of the project will be spread amongst the partner agencies based on the size of their service areas.

### **Fiscal Impact**

\$27,758.04.
